

Peanut Drops Earrings

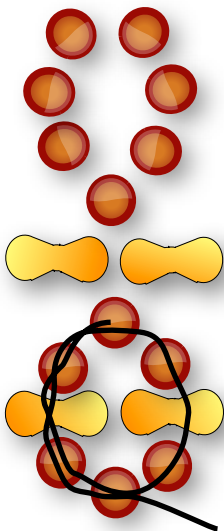

©2015 Denise C May

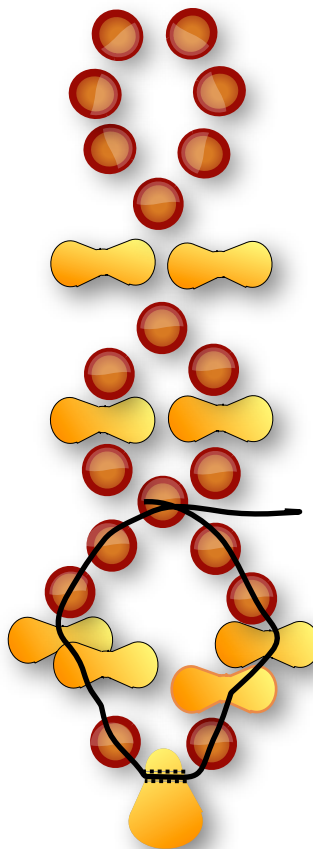

String 1 A, 1 B, 1 A and 1 B, then go through again to make a circle coming out of A bead

Add 6 A beads to form a loop for attaching the earwire. Go through all 7 A beads again, then carry thread through beads to exit bottom A bead.

Add 1 A, 1 B, 3 As, 1 B and 1 A. Go through the A bead you exited below the round before. Thread through the beads just added until you exit the center A on the bottom.

Add 2 As, 2 Bs, 1 A, one drop bead, 1 A, 2 Bs, and 2 As. Go through center bead from round above. Reinforce any part of the earrings that seems as if it needs stiffening or tightening by going through the areas again. Tie a know and carry threads through the earring. Cut thread. Attach earwire.

Now make another one!
